

L

Advanced Concepts on Address Translation

by Abhishek Bhattacharjee

Appendix L is available online at <https://www.elsevier.com/books/computer-architecture/hennessy/978-0-443-15406-5>

M.1	Introduction	M-2
M.2	The Early Development of Computers (Chapter 1)	M-2
M.3	The Development of Memory Hierarchy and Protection (Chapter 2 and Appendix B)	M-9
M.4	The Evolution of Instruction Sets (Appendices A, J, and K)	M-17
M.5	The Development of Pipelining and Instruction-Level Parallelism (Chapter 3 and Appendices C and H)	M-28
M.6	The Development of SIMD Supercomputers, Vector Computers, Multimedia SIMD Instruction Extensions, and Graphical Processor Units (Chapter 4)	M-46
M.7	The History of Multiprocessors and Parallel Processing (Chapter 5 and Appendices F, G, and I)	M-57
M.8	The Development of Clusters (Chapter 6)	M-76
M.9	Historical Perspectives and References	M-82
M.10	The History of Magnetic Storage, RAID, and I/O Buses (Appendix D)	M-87
